HAUL ROUTE AND TRUCK TRIPS

MOUNTAIN WEST HAUL ROUTE

Juniper Fed HZ Truck Trips

Phase	Work Activity	Estimated Start	Estimated End	Estimated Traffic Total / Per Day
1	Pad Construction	July 2027	September 2027	7,239 / 80
2	Surface Casing	September 2027	October 2027	651 / 27
3	Horizontal Drilling	October 2027	December 2027	4,977 / 60
4	Well Completions	February 2028	April 2028	37,255 / 391
5	Production Facility Construction	December 2027	April 2028	2,394 / 30
6	Interim Reclamation*	June 2028	August 2028	3,405 / 57
The interim reclamation traffic per day count represents an estimated 60-day noncontinuous period.*				

Dandelion Fed HZ Truck Trips

Phase	Work Activity	Estimated Start	Estimated End	Estimated Traffic Total / Per Day
1	Pad Construction	May 2027	July 2027	3,077 / 68
2	Surface Casing	July 2027	August 2027	326 / 27
3	Horizontal Drilling	August 2027	September 2027	2,951 / 65
4	Well Completions	January 2028	February 2028	9,700 / 282
5	Production Facility Construction (Near Juniper Fed HZ)	October 2027	February 2028	2,394 / 30
6	Interim Reclamation*	March 2028	May 2028	3,405 / 113
The interim reclamation traffic per day count represents an estimated 60-day noncontinuous period.*				

LEAD WITH PASSION • OUTPERFORM EXPECTATIONS
DELIVER RESULTS RESPONSIBLY • UNLEASH OPPORTUNITIES
COMMIT TO GOOD

GOOD NEIGHBOR COMMITMENT

NOISE

We use upgraded drilling rigs with noise reducing features and quiet hydraulic fracturing technology. These features reduce the noise from our operations.

LIGHT

We use light-emitting diode (LED) lights strategically oriented away from homes, making our operations less visible to our neighbors.

ODOR

To counteract any potential hydrocarbon odor during our drilling operations, we use low-aromatic, synthetic drilling fluid.

DUST

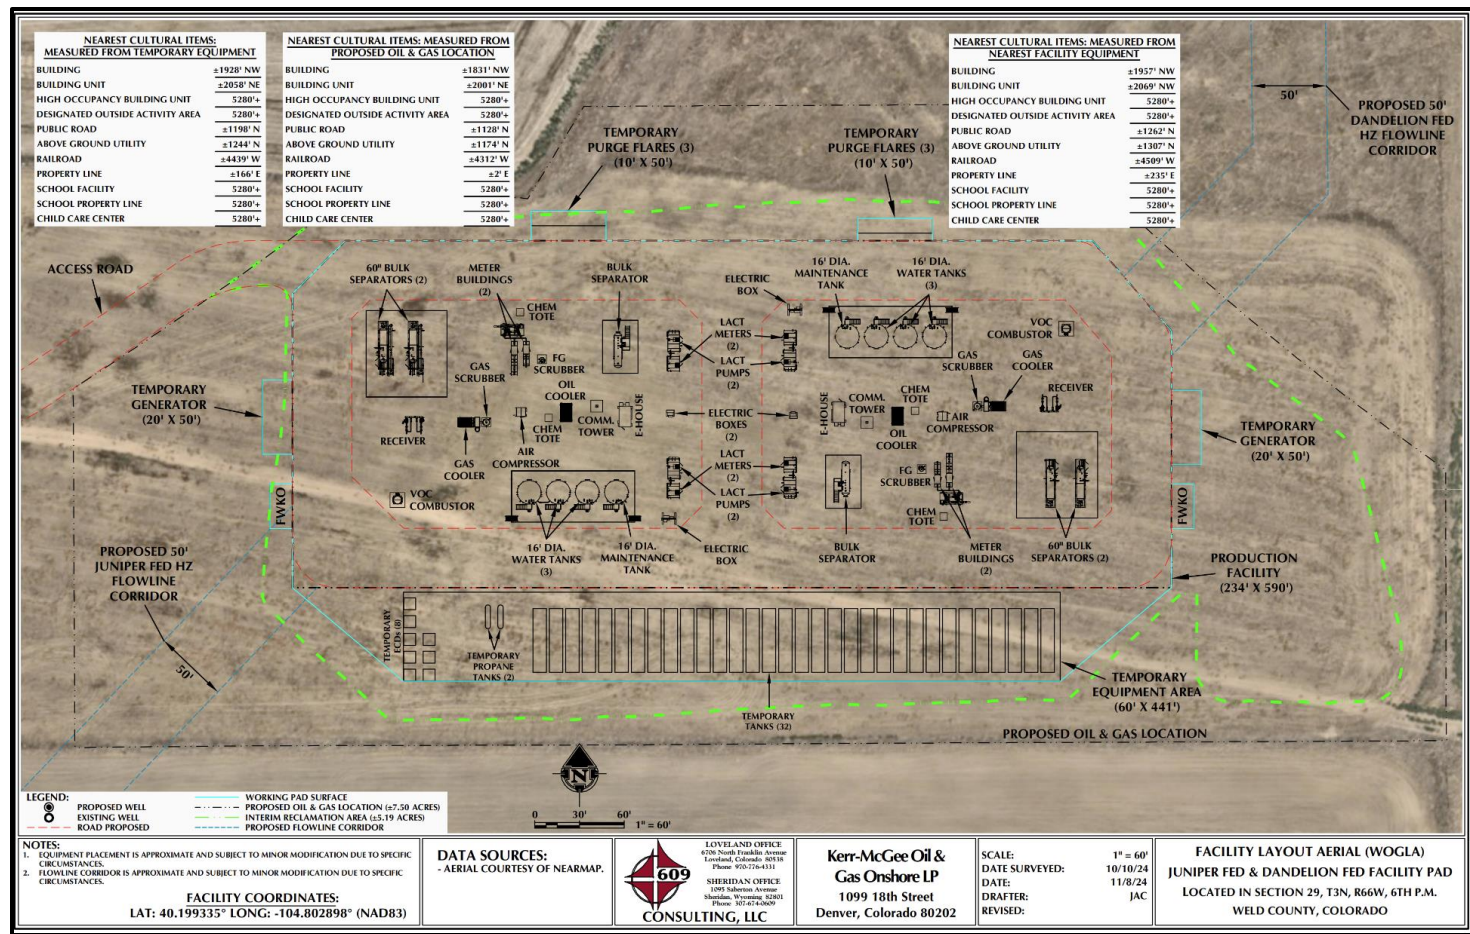

We work to mitigate dust by applying dust suppression to the roads as needed. Various techniques include installing tracking pads and sediment traps, hydro mulching and/or hydroseeding topsoil piles, seeding disturbed soils, and placing and compacting a gravel layer on the working pad surfaces and access roads.

HORIZONTAL DRILLING

UNDERGROUND ACTIVITY

A production rig arrives and drills to a depth of 7,000 to 8,000 feet.

The horizontal portion of the wellbore can extend more than 2 miles.

Horizontal drilling takes approximately 4-6 days per well. The Mountain West location has 24 wells: 16 on the Juniper Fed location and 8 on the Dandelion Fed location.

PROTECTIVE STEEL CASING

Additional layers of protective steel casing and cement are installed.

COMPLETIONS

Well completions consists of hydraulic fracturing, flowback, well clean-out and tubing installation. Completions takes approximately 4-6 days per well.

Hydraulic Fracturing: A safe, highly engineered technology developed in the 1940s. Fluid is pumped over a mile below the earth's surface under pressure to create hairline fractures in the rocks.

We transport the water used in hydraulic fracturing through our innovative “Water-On-Demand” pipeline system. Between the Dandelion Fed, Juniper Fed, and Facility locations, this technology will enable us to eliminate 164,000 truck trips.

Flowback: After fracturing, the wells are opened, and oil and gas flow into the mobile production facility.

Well clean-out and Tubing: The wells are cleaned out to remove excess sand and install the production tubing.

ESTIMATED PERMITTING AND NOTICE TIMELINE

WE WOULD LOVE TO HEAR FROM YOU

Please reach out to us if you have any questions or would like to provide feedback during the entire permitting process. Our team is also available during development and operations.

OXY COMMUNITY RESOURCES

STAKEHOLDER RELATIONS TEAM

Our Stakeholder Relations team is a dedicated resource for the community. We will provide updates, answer questions, and listen to and incorporate your feedback.

CONNECT WITH US:

Phone: 866.248.9577
Email: ColoradoStakeholder@oxy.com
Website: OxyColoradoStakeholder.com (English)
Es.OxyColroadoStakeholder.com (Spanish)

INTEGRATED OPERATIONS CENTER (IOC)

The IOC is staffed 24 hours per day, seven days per week, 365 days per year by Oxy personnel who have been trained in the Oxy response practices and procedures.

They can be reached at 970.515.1500.

INDUSTRY COMMUNITY RESOURCES

You can also reach out to the state and local regulatory agencies for additional resources and information. Please reference the Mountain West Permit.

YOUR FEEDBACK IS IMPORTANT TO US

Thank you for attending the Mountain West Community Meeting. Your thoughts about the proposed project are important. We look forward to learning more about your community and your preferences as we work through the permitting process.

Please scan the QR code to share feedback about the Mountain West project and receive email updates. You may also fill out the survey you received at check-in.
